Professional Profile

Systems-focused Developer and Operations Analyst with a B.A. in Computer Science. Experienced in bridging tech complexity and business delivery by translating stakeholder needs into cloud workflows, relational databases, and enterprise platforms. Bilingual (English/Spanish).

Education & Certifications

B.A in Computer Science | Wabash College

Graduation: May 2026

- **Relevant Coursework:** Database Programming, Algorithm Design, Data Structures, Data Science.

AWS Certified Cloud Practitioner – Amazon Web Services (Issued: April 2026)

Core Technical & Professional Competencies:

Cloud & Infrastructure: AWS (S3, EC2, IAM, Lambda), Environment Configuration, Cloud Migration, System Integrations.

Databases & Software: Relational Database Design, PostgreSQL, SQL, REST API's, Python, C, HTML & CSS.

Consulting & Delivery: Process Mapping, Requirements Gathering, Figma Prototyping, Stakeholder Management.

AI & Generative Systems: Claude Code, Agentic Orchestration, AI Concepts & Literacy.

Professional Experience:

Database Developer Intern & Project Lead

Sept. 2025 – Dec. 2025

Montgomery County Free Clinic | Crawfordsville, IN

- **Agile Team Leadership:** Led a 3-person team to map complex clinical workflows into functional technical specs, spearheading the migration of legacy paper records into a secure, PostgreSQL cloud environment.
- **System Validation & Optimization:** Formulated relational schema constraints and data validation logic, eliminating data defects and drastically accelerating administrative processing speeds.

Freelance Developer & Technical Consultant

Dec. 2025 – Present

Independent Technical Practice | Austin, TX

- **Client Advisory:** Partner with small businesses to translate commercial operational workflows into web and platform solutions using relevant front-end tools and frameworks.
- **Deployment:** Provision, configure, and deploy responsive web infrastructure utilizing AWS S3 environment parameters.

Founder & Business Operations Lead

Aug. 2022 – Jan. 2025

CutbyOliver | Crawfordsville, IN | Austin, TX

- **Workflow & Analytics Optimization:** Engineered a custom CRM and digital scheduling architecture to automate client pipelines while evaluating revenue and scheduling patterns to execute data-driven pricing, scaling operations to 150+ clients with a 100% service reliability rate.

Technical & Delivery Projects

Digital Intake Enterprise Platform | Montgomery County Free Clinic (*React, TypeScript, SQL, Supabase, Git*)

- Engineered a full-stack digital intake web system for the Montgomery County Free Clinic, creating form validation logic to ensure clean data migration into cloud storage.
